Speakers' Biography:

Ian is an Ex-Royal Navy engine room officer, studying at HMS Caledonia and Sultan. He worked as a commissioning engineer for Rolls Royce from 1980 to 1988, with the Olympus and Spey Gas Turbines. He joined GE Aircraft Engines/Baker Hughes in 1989. In his 31 year career, he has held positions responsible for the Field Service organization in Germany from 1991 until 1998 covering Europe & the Middle East. He led a team of 7 who were responsible for the successful installation and commissioning of the various Aero engines in Single Annular Combustion and the very first Dry Low Emission Technologies. In 1998 he returned back to Cincinnati as a Customer Service Manager for Canada, then switching over to Order To Remittance (OTR) and then Product Leadership for the LM2500 & LM6000 Gas Turbines. During this period, he was responsible for the technical support of these products with a variety of Original Equipment Manufacturing (OEM) companies. In 2010, he transferred from GE Aviation to GE Oil & Gas focusing on the Package improvement programs for the future growth aero gas turbines.

He has been married for 34 years and has two children. His hobbies include Mud Crawling with a Jeep and Motorcycle riding in the mountains
